Milestones in Aging

Kanin

"I come from a hundred years in the future to warn you that nothing really changes in the next hundred years."

GLENN FOUNDATION FOR MEDICAL RESEARCH

Founded by **Paul F. Glenn** in 1965, the mission of the **Glenn Foundation For Medical Research** is to extend the healthy years of life through research on mechanisms of biology that govern normal human aging and its related physiological decline, with the objective of translating research into interventions that will extend healthspan with lifespan.
