

What is Salk SURF?

The Salk Summer Undergraduate Research Fellowship (Salk SURF) is a 9-week, paid, mentored research internship that provides access to world-class research facilities, hands-on training to learn and build research skills, access to a network of mentors, and foundational experiences for students interested in science or considering STEM careers.

We provide:

- A competitive wage
- Roundtrip travel within the U.S. and local housing accommodations as needed
- Hands-on technical and skills training in world-renowned research labs
- Networking and professional development opportunities

Eligibility

Applicants must be:

- 18 years or older
- Currently enrolled in an accredited bachelor's degree-granting program or a community college student in their transfer year
- A rising junior or rising senior at the time of participating in the program
- Have a minimum 3.0 GPA (overall)
- Commit to full program dates and requirements
- Not be enrolled in concurrent summer courses
- Eligible to work in the U.S.

Students of all backgrounds are encouraged to apply.

How to Apply

Applicants must complete an online application and submit all supplemental documents:

- Resume or curriculum vitae
- Unofficial transcript

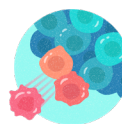

About the Salk Institute

The Salk Institute embodies Jonas Salk's mission to dare to make dreams into reality. Its internationally renowned and award-winning scientists explore the very foundations of life, seeking new understandings in neuroscience, genetics, immunology, plant biology, and more. The Institute is an independent, nonprofit organization and architectural landmark.

Research Areas

Biochemistry & Biophysics

Cancer

Computational Biology

Healthy Aging
